Life – A Priceless Opportunity - Choice is Yours !

Life is merely an opportunity. What you do with it is for you to decide. Life is neither purposeful nor purposeless. Human birth is an opportunity that has been given to you, while death is when that opportunity is taken away. Between birth and death is there is a *field* called life. You alone must cultivate it. Even if you do not grow anything, weeds will certainly grow. But if you want beauty and fragrance, then you will have to plant roses. Roses, however do not grow themselves. They require an effort; they require *Sadhana* with *Seva* and *Samarpan*.
